# Cocci: the hidden killer

## Your lambs could be at risk **NOW**

Recent survey results have concluded that 93%<sup>†</sup> of sheep farms have Cocci present.

Cocci can remain dormant for up to 2 years – you may not even be aware that your pasture is infected. Sadly this means an outbreak could happen at any time.

Although treatment after symptoms are visible may reduce the damage wreaked, many lambs will not recover lost condition and all will require extra feed and care to reach slaughter weight.

But cocci does not need to be disastrous – an outbreak can be avoided by preventative **pre-treatment** with Vecoxan drench, as part of your lambing healthcare routine.

**93%<sup>†</sup> of sheep farms are INFECTED**

**Vecoxan<sup>TM</sup>** Prevent now. Don't pay later.

Vecoxan contains diclazuril. Legal category **LVM**

Mini-tub

## EXTRA HIGH ENERGY

Crystalyx is the highest energy feed lick on the market - it is also fully mineralised.

Crystalyx plus good quality forages is sufficient feed for most situations. Meals will be necessary for early lambing or multiple births.

Crystalyx doesn't break up in the weather and lasts a long time because the product is hard at 99% dry matter due to a heating process.

1 Mini-tub will last 20 ewes approx 3 weeks at a cost of approx 6 cents per ewe per day.

**It take some licking!**

# Texels thrive on Tracesure and tyfon partnership

A family of Texel breeders who maximise the growth rates and fertility of their flocks by grazing on tyfon say this would not be an option if they didn't supplement with Animax trace element boluses.

John Davies and his sons, Hywel and John Eirian, grow tyfon as buffer for their Texels but before they started bolusing, lambs were developing white muscle disease as well as goitre due to goitrogens in the crop.

Thanks to the Tracesure boluses – which provide a slow release of selenium, iodine and cobalt over the grazing period – this is no longer a problem.

"I intend to keep growing tyfon because it is a cheap source of protein and a good cover for new leys but I wouldn't dream of grazing tyfon without using the boluses because the Texels need selenium, iodine and cobalt to prevent any problems with fertility and to maximise growth," says John

**John Eirian Davies supplements his Texels with Tracesure boluses.**

Davies, who runs the Aman flock near Ammanford.

He boluses his Texel ewes and ram lambs at weaning. "If we didn't bolus I am confident we wouldn't have the growth rates we are getting," he says.

John Eirian, who runs the Teilo flock at Llwynyrinn Farm, Capel Issac, boluses once before his lambs go onto the flock in May and again in the first week of August. "The performance of the flock in the sales since growing the crop has been unprecedented, the flock has broken its average and topline returns in each of the four years since we started growing tyfon," he says.

# CONDITIONS OF SALE

1. The highest bidder to be the purchaser subject to paragraph 5. If any dispute shall arise between two or more bidders then the lot in dispute to be put up again and re-sold, or the auctioneer may declare the purchaser.
2. Purchasers to give their name and place of abode, and pay a deposit of 20% in part payment for each lot, or the whole of the purchase money, immediately or on the fall of the hammer if required.
3. All lots to be cleared away at the buyers expense at the close of the sale, to be at the risk of the purchaser from the time the lot is sold and to be taken with all faults and errors of description.
4. Purchasers at this sale not complying with the above conditions will be subject, without further notice, to have their lots resold whether by public auction or by private contract, the deposit money will be forfeited and any deficiency with all expenses attending such resale to be made good by the defaulters at this present sale.
5. No rams to be sold at less than €250 and no ewe will be sold less than €200. Buyers will be charged a fee of 5% of the sale price.
6. The first 6 lots in the male and female section if unsold can be re-run after the first 30 lots in each corresponding category.
7. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the sheep prior to the sale.
8. The sellers and the auctioneers have described the sheep to the best of their ability and knowledge and any implied or express opinions, warranty or representation, statutory or otherwise howsoever, whether as to the capabilities of the sheep for stock or otherwise is hereby excluded.
9. Rams will be sold in the order in which they appear in the catalogue saving the Champion and Reserve Champion.
10. All lots are on the market from the first bid - when the auctioneers hammer falls the vendor may refuse or accept the final bid. No further bids are allowed.

## IMPORTANT

The sales inspectors will inspect and cull any sheep which in their opinion, have been brushed or trimmed save for the squaring of the tail as well as sheep incorrectly tattooed. Culled sheep may not go through the ring. All sheep passing the pre-sale inspection must be put through the sales ring, unless the sheep is obviously unwell.
