Sam Wilson - Shannagh, Raphoe, Co. Donegal	217

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

Sheep Ireland EuroStars

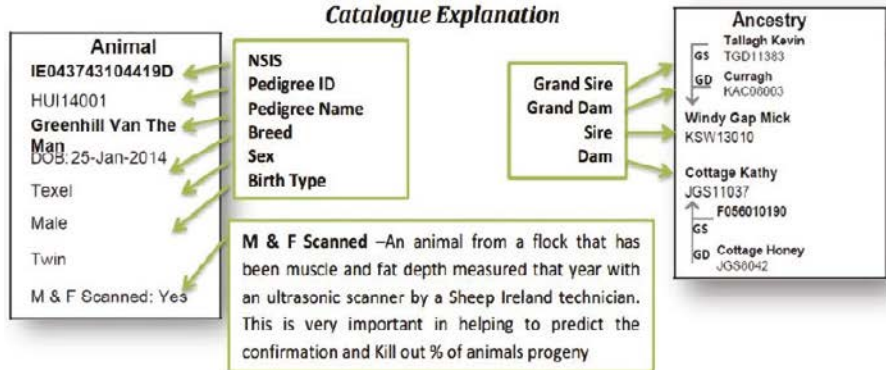

### Background

Sheep Ireland was established "To achieve the greatest possible improvement, from genetic and other factors, in the profitability of the national sheep flock for the benefit of the Irish farmers and sheep industry".

### How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

### Catalogue Explanation

### EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed
- **Five star** represents the **top 20%** of the breed
- The higher the stars, the higher the predicted profitability of that animal

### Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

### Acc % (Accuracy%)

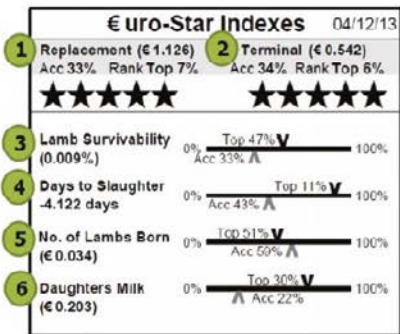

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example above)

#### Acc % parameters

V.Poor, 0% - 14%      Poor, 15% - 24%  
Fair, 25% - 34%      Good, 35% - 49%  
V.Good, 50% and above

### Indexes & Traits

- 1) **Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) **Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) **Days to slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 4) **Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 5) **No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed
- 6) **Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed

### RamSearch.ie

The Sheep Ireland Online Ram search is also available at [ramsearch.ie](http://ramsearch.ie); you can use this tool to get the most up to date evaluations for a ram, to search for rams by county, breed and current evaluation ratings.

### Contact Us

To Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit [www.sheep.ie](http://www.sheep.ie), E-mail [query@sheep.ie](mailto:query@sheep.ie), or Call us on 1850 601 901

## CONDITIONS OF SALE

1. The highest bidder to be the purchaser subject to paragraph 5. If any dispute shall arise between two or more bidders then the lot in dispute shall be put up again and resold, or alternatively the auctioneer may declare the purchaser.
2. Purchasers are to give their name and place of abode, and may be asked to pay a 20% deposit in part payment for each lot purchased, or the whole of the purchase price, immediately or on the fall of the hammer if required.
3. All lots to be cleared away at the buyers expense at the close of the sale. This is at the risk of the purchaser from the time the lot is sold and to be taken with all faults and errors of description.
4. Purchasers, at this sale not complying with the above conditions, will be subject without further notice to have their lots resold whether by public auction or by private contract. The deposit money shall be forfeited and any deficiency with all expenses attending such resale to be made good by the defaulters at this present sale.
5. No rams to be sold at less than €300, no ewe to be sold at less than €200. Buyers will be charged a commission fee of 5% of the sale price.
6. The first 6 lots in the male and the female section if unsold can be re-run after the first 30 lots in each corresponding category.
7. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the sheep prior to the sale and purchasing same.
8. The auctioneers and sellers have described the sheep to the best of their ability and knowledge and any implied or express opinions, warranty or representation, statutory or otherwise howsoever, whether to the capabilities of the sheep for stock or otherwise is hereby excluded.
9. All sheep will be sold in the order that they appear in the catalogue, with the exception of the Male and Female Champion & Reserve Champion.
10. All lots are on the market from the first bid – when the auctioneer's hammer falls the vendor may refuse or accept the final bid. No further bids are allowed.
11. Males that are bid to €2000, Females that are bid to €1500 but unsold by the vendor, will automatically be deducted 5% commission by the auctioneer.

## IMPORTANT

All sheep are subject to veterinary inspection prior to penning. The sales inspectors will inspect and cull any sheep, which in their opinion, have been brushed or trimmed, save for the squaring of the tail. All sheep must be notched in correspondence with their tag identification details. Sheep, which have not passed this pre-inspection, must not go through the sales ring. All sheep passing the pre-sale inspection must be put through the sales ring, unless the sheep is obviously unwell.

We request that breeders observe the rule for the duration of this and all other Society Sales that fleeces are not further interfered with, i.e. brushing or trimming etc, the only exception being washing of the face & legs.

Animal Health & Equipment

**MATINGMARK**

**Click & Go**  
**No pins needed!**

## **Ram Harness & Crayon System**

The **MATINGMARK** ram harness and crayon system is the quickest and most convenient harness system available. Crayon changes can be carried out by one person in seconds using the click-in click-out crayon holder - no pins needed.

The **MATINGMARK** crayon has been developed with Irish weather conditions in mind and will leave plenty of mark on ewes at temperatures below 18 degrees.

The seating position and low walled holder ensure maximum crayon usage. The crayon contains beeswax which results in a formulation that reduces clogging with wool and other debris.

**Scan here for MATINGMARK fitting video**

## Application Form for Membership

Name: .....

Address: .....

.....

.....

Tel No. .... Mobile .....

email: .....

Flock Designator: IE04 .....

I am the owner of 5 Pedigree Registered Females and I would like to apply for membership and a €1 share in the above named Society. I hereby to abide by the Rules of the Society, make payments as required and otherwise to be bound thereby.

Applications need to be received by Society Secretary prior to 31<sup>st</sup> December in the year of application, so flocks can be established prior to lambs being born and also for the breeder to be eligible for participation in the following year's Society Sales.

Please register my flock under the prefix\*

First Choice: .....

Second Choice: .....

\*Farm name or first line of address usually taken as prefix

Signature: .....

Date: .....

### Terms of Membership

**It is recommended that intending members contact the Society Secretary prior to purchasing foundation stock.**

€65 Entrance Fee & €50 Annual Membership Fee = €115

(Other fees may be payable, contact Society Secretary)

Details of Ewes & Rams owned must be submitted with application

**This form should be completed, signed and sent with certificates and appropriate fees to:**

**The Secretary**

**Irish Texel Sheep Society**

**Kellistown Farm**

**Kellistown, Carlow**

# Only Heptavac-P *plus* protects against Pasteurella and Clostridia

## Vaccinate your flock NOW!

Use Medicines Responsibly.

Heptavac P Plus is indicated for the active immunisation of sheep to reduce mortality and clinical signs of clostridial diseases such as lamb dysentery, pulpy kidney, struck, tetanus, braxy, blackleg and black disease, and to reduce mortality and clinical signs of pneumonic and systemic pasteurellosis.

For a complete list of components included in the vaccine\* and any further information, please contact MSD Animal Health, Red Oak North, South County Business Park, Leopardstown, Dublin 18, Ireland.
