# ENNISCRONE TEXELS

The flock was established in 1992 with the purchase of females from several local flocks. The aim has always been to breed sheep with plenty of size and power that appeal to commercial sheep producers and pedigree breeders. The top lambs go to Blessington every year with many of them selling to pedigree flocks. Embryo Transfer plays a big part in our breeding plan. Our best ewes are flushed every year to top UK and Irish sires. Some ET daughters from our best ewes are included in this sale. We are donating a recipient ewe carrying a Blue Texel embryo for a raffle with all proceeds going to North West Hospice.

# CLEW BAY FLOCK

The flock was established in 2005 with the aim of breeding big strong correct rams to satisfy local demand for commercial sheep producers. In 2011 we started using AI and Embryo Transfer. This has had a massive impact on our flock namely Shannagh Won O Won, Derrylahan Werewolf, Milnbank Valdaron and has fast forwarded the genetic progress we have made enabling us to compete very successfully at national level. The use of ET has left us in a position to offer some of our top breeding females for sale. A few rams have had a massive impact on our flock namely Allanfauld Rockafella, Teigluim Tornado, Enniscrone Playboy and Tamnamoney Preacher. Several of their progeny are included in the sale.
