RepiDerma

Footrot
Treatment

- Antibiotic free!
- Skin protection spray
- For all types of animals
- Contains chelated minerals
- Micronized minerals for optimum uptake

RepiDerma

RepiDerma is a skin care product with immediate effect. The active ingredients are chelated minerals which - unlike traditional minerals - can be absorbed easily by the skin. Therefore, RepiDerma is not only active 'on' the skin, but also 'under and within' the skin. This process is intensified because the chelated minerals are micronized, using the latest nanotechnology techniques. Minerals are ground into tiny particles of maximum 3 µm, using specialized equipment. This is 25,000 times smaller than a sand grain. As a result, the particles penetrate deeply into the skin in a short time.

RepiDerma is distributed by Agrihealth and available from your local merchant or Co-Op. For your nearest stockiest contact us today.

Background

Sheep Ireland was established “To achieve the greatest possible improvement, from genetic and other factors, in the profitability of the national sheep flock for the benefit of the Irish farmers and sheep industry”.

How to select a ram fit for purpose?

Evaluations should **never** be the **only** tool you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

Catalogue Explanation

Euro-Stars – How to interpret them

- Each star represents the ranking of each index in 20% bounds
- One star represents the bottom 20% of the breed
- Five star represents the top 20% of the breed
- The higher the stars, the higher the predicted profitability of that animal

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

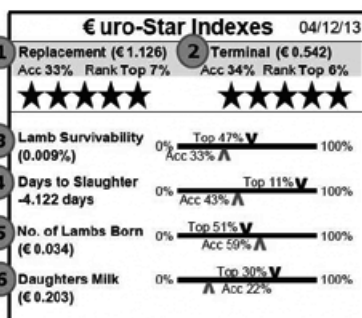

Acc % (Accuracy%)

- Acc is an abbreviation of Accuracy. This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example above)

Acc % parameters

V.Poor, 0% - 14% Poor, 15% - 24%
Fair, 25% - 34% Good, 35% - 49%
V.Good, 50% and above

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs both for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Days to slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 4) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of its daughters compared with other animals of the same breed

Ram Search

The Sheep Ireland Online Ram search is also available at sheep.ie; you can use this tool to get the most up to date evaluations for a ram, to search for rams by county, breed and evaluation ratings.

Contact Us

To Find out more about Euro-Star rams, LambPlus or the Online Ram search you can

- 1) Visit www.sheep.ie
- 2) E-mail query at [sheep.ie](mailto:info@sheep.ie)
- 3) Call us on 1850 601 901

Important: The Pedigree Information and other animal data printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder.

087 – 3907540

CONDITIONS OF SALE

1. The highest bidder to be the purchaser subject to paragraph 5. If any dispute shall arise between two or more bidders then the lot in dispute shall be put up again and resold, or alternatively the auctioneer may declare the purchaser.
2. Purchasers are to give their name and place of abode, and may be asked to pay a 20% deposit in part payment for each lot purchased, or the whole of the purchase price, immediately or on the fall of the hammer if required.
3. All lots to be cleared away at the buyers expense at the close of the sale. This is at the risk of the purchaser from the time the lot is sold and to be taken with all faults and errors of description.
4. Purchasers, at this sale not complying with the above conditions, will be subject without further notice to have their lots resold whether by public auction or by private contract. The deposit money shall be forfeited and any deficiency with all expenses attending such resale to be made good by the defaulters at this present sale.
5. No rams to be sold at less than €250, no ewe to be sold at less than €200. Buyers will be charged a commission fee of 5% of the sale price.
6. The first 6 lots in the male and the female section if unsold can be re-run after the first 30 lots in each corresponding category.
7. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the sheep prior to the sale and purchasing same.
8. The auctioneers and sellers have described the sheep to the best of their ability and knowledge and any implied or express opinions, warranty or representation, statutory or otherwise howsoever, whether to the capabilities of the sheep for stock or otherwise is hereby excluded.
9. All sheep will be sold in the order that they appear in the catalogue, with the exception of the Male and Female Champion & Reserve Champion.
10. All lots are on the market from the first bid – when the auctioneer’s hammer falls the vendor may refuse or accept the final bid. No further bids are allowed.
11. Males that are bid to €2000, Females that are bid to €1500 but unsold by the vendor, will automatically be deducted 5% commission by the auctioneer.

IMPORTANT

All sheep are subject to veterinary inspection prior to penning. The sales inspectors will inspect and cull any sheep, which in their opinion, have been brushed or trimmed, save for the squaring of the tail. All sheep must be notched in correspondence with their tag identification details. Sheep, which have not passed this pre-inspection, must not go through the sales ring. All sheep passing the pre-sale inspection must be put through the sales ring, unless the sheep is obviously unwell.

We request that breeders observe the rule for the duration of this and all other Society Sales that fleeces are not further interfered with, i.e. brushing or trimming etc, the only exception being washing of the face & legs.

Pedigree / Commercial Lamb Feeds

Full range of top quality pelleted and cooked mix feeds for sheep & lambs available

18% No.1 Lamb Cooked Starter

Specially formulated as a starter creep feed for young commercial and pedigree lambs. Contains a unique blend of cooked cereals and proteins.

17% No.2 Lamb Creep Feed

A high energy feed specifically formulated to supply the nutrient requirements of pedigree / commercial lambs from the first creep feed, through finishing, to show / sale. Extremely nourishing and palatable feed.
