**ON FRIDAY 21st NOVEMBER 2014  
AT RAPHOE LIVESTOCK MART**

**Show: 5.00pm Sale: 6.30pm**

A very warm welcome from the Donegal Texel Breeders to our annual in-lamb ewe sale. This year sees almost fifty quality ewes offered for sale from a number of the top flocks in the county. Ewes offered for sale this year are in-lamb to a number of high quality service sires including the following:

- **Emlach T-Rex** – Sired by Glenside Razzle Dazzle. Former senior stock ram for the Silverhill flock, now senior stock ram for the Labbadish flock. 1<sup>st</sup> prize Senior Ram at the All-Ireland Championships held at the Finn Valley Show this year having previously been 1<sup>st</sup> prize Senior Ram Lamb at the 2012 Championships. Purchased for €3,000gns at Blessington 2012.
- **Enniscrone Van Gaal** – A much admired ram lamb purchased by the Silverhill, Roughan and Shannagh flocks for €5,000gns at Blessington this year - the 2<sup>nd</sup> highest price on the day. High hopes are held for his progeny next year.
- **Garngour Nobleman** – Sold for £16,000gns as a ram lamb at Lanark 2007. Sire of numerous quality rams and ewes; he has bred ram lambs to €1,000 and shearing rams to €1,200 for the Hillcrest flock.
- **Speenogue Pierre** – Sired by Roughan Laptop. This ram was the 2012 All-Ireland Supreme Champion and has consistently bred many top priced hoggets for the Figart flock in previous in-lamb ewe sales at this venue.
- **Sportsman's Superstar** – Sold for £14,000gns as a ram lamb at Lanark 2011. Senior stock ram for the Hillcrest and Shannagh flocks. Sire of many quality sheep including Hillcrest Topshot sold at Blessington 2012 for €1,785gns who has won numerous championships this year for Anne Murphy's Foundry flock.

All ewes offered for sale have been scanned and are guaranteed to be in-lamb. The date of service is deemed to be correct but it should be noted that ewes can lamb before or after the expected date.

Finally, Donegal Texel Breeders would like to wish all buyers the very best of luck with their purchases.

**Background**

Sheep Ireland was established “To achieve the greatest possible improvement, from genetic and other factors, in the profitability of the national sheep flock for the benefit of the Irish farmers and sheep industry”.

**How to select a ram fit for purpose?**

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

**Catalogue Explanation**

★★★★★

**Euro-Stars – How to interpret them**

- Each star represents the ranking of each index in 20% bounds
- One star represents the bottom 20% of the breed
- Five star represents the top 20% of the breed
- The higher the stars, the higher the predicted profitability of that animal

**Rank**

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

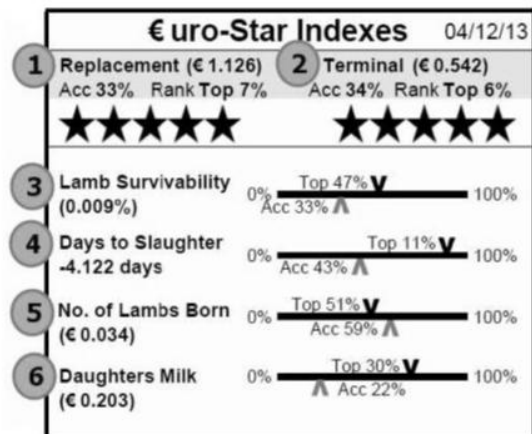

**Acc % (Accuracy%)**

- Acc is an abbreviation of Accuracy. This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example above)

### Acc % parameters

**V.Poor**, 0% - 14%      **Poor**, 15% - 24%  
**Fair**, 25% - 34%      **Good**, 35% - 49%  
**V.Good**, 50% and above

- 1) **Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) **Terminal (€0.542)** – If a farmer desires a ram to breed only lambs both for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) **Days to slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 4) **Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 5) **No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed
- 6) **Daughters Milk** – This ranks animals based on the predicted milking performance of its daughters compared with other animals of the same breed

## CONDITIONS OF SALE

1. Highest bidder to be purchaser subject to reserve price. If any dispute arises between two or more bidders, the lot to be put up again and resold or auctioneer may declare the purchaser.
2. The pedigree, history and description of each animal shall be guaranteed and warranted to be correct in all particulars, by the person whose name appears as Vendor but such animal shall be sold, subject to all faults. No liability whatsoever shall be undertaken by the Auctioneer, for the statements appearing in the catalogue. The Vendors who supply such statements are alone responsible for any error or misrepresentation.
3. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the sheep prior to the sale and purchasing same.
4. Ewes which are scanned in-lamb on the day of sale cannot be guaranteed in lamb beyond the sale date nor can the number of lambs which they carry be guaranteed whatsoever.
5. All lots to become the absolute property of purchaser at the fall of the hammer.
6. The auctioneer acts as agent for the vendors and any action taken by a purchaser must be against the vendors and not the auctioneer or livestock mart committee.
7. Sheep will be sold in the order in which they appear in the catalogue.
8. Ewes will be sold in Euro guineas and all cheques must be advised to AIB, Ballybofey, Co. Donegal.
9. All purchases are made on the distinct and clear understanding that no warranty or guarantee whatsoever is given and shall be in the risk of the purchaser at the fall of the hammer.
10. Purchasers not complying with these conditions will be liable to have their lots resold by public auction.
