EUROSTARS EXPLAINED

Lambplus is the new sheep performance scheme being serviced by ‘Sheep Ireland’ the sheep section of ICBF. At the present time it evaluates sheep on three traits that relate to profitability in sheep. They are Meat Production, Maternal and Lambing. They are measured in Eurostars.

Eurostars help give an instant indication as to where an index for a particular animal places it compared to all other animals within its breed.

***** 5 stars : top 20%

**** 4 stars : top 60-80%

*** 3 stars : 40-60%

** 2 stars : bottom 20-40%

* 1star : bottom 20%

Guidelines about how to use the Eurostars

Ram Purchasers should:

1. Identify what aspects of their flocks performance they would like the ram to improve in their flock i.e. Production, Maternal, Lambing Sub-Index.
2. Select those rams that have at least 4 Eurostars for the desired Sub-Index(s).
3. Pay attention to the Accuracy % of the Eurostars at all times.
4. The selected Ram should of course meet with the Purchaser’s requirements from a visual viewpoint.
5. The Eurostar figures should be used as a tool to help in the selection process. The higher the Accuracy of the figures the more they can be relied upon.
