## EXPLANATION ABOUT DOUBLE TAGGING

The Irish Texel Sheep Society has an agreement with the Dept. of Agriculture that Texel sheep can retain their double tags when sold on to any other purchaser.

The purchaser/new owner must also be agreeable to this arrangement i.e. they cannot be prohibited from replacing the right ear tag with one of their own tags if they so wish.

The new owner should make a note in their flock register to indicate the animals that are not being retagged because of this arrangement.

All parties must understand that this agreement is for the remainder of 2009 only. Whatever arrangements are finalised for the implementation of EID from 1 Jan 2010 will apply to animals born after that date.

**Cocci: the hidden killer**

Your lambs could  
 be at risk **NOW**

Recent survey results have concluded  
 that 93%<sup>†</sup> of sheep farms have  
 Cocci present.

Cocci can remain dormant for up to 2  
 years – you may not even be aware that  
 your pasture is infected. Sadly this means  
 an outbreak could happen at any time.

Although treatment after symptoms are  
 visible may reduce the damage wreaked,  
 many lambs will not recover lost condition  
 and all will require extra feed and care to  
 reach slaughter weight.

But cocci does not need to be disastrous –  
 an outbreak can be avoided by preventative  
**pre-treatment** with Vecoxan drench, as  
 part of your lambing healthcare routine.

**93%<sup>†</sup> of sheep farms are  
 INFECTED**

**Vecoxan<sup>TM</sup> Prevent now. Don't pay later.**

## 1. How has ICBF become involved in Sheep Breeding?

“Sheep Ireland” is the trading name of Sheep Database Ltd. In 2008, “Sheep Ireland” was formed after a period of extensive consultation with the sheep industry. The key events in the history of how ICBF has become involved in sheep breeding are briefly as follows:

June 2006: The ‘Sheep Industry Development Strategy’ report was completed, under the chairmanship of John Malone. This report recommended that ICBF should become involved in sheep breeding.

Feb 2007: ICBF developed a proposal for sheep breeding & sheep information services. This proposal gave details of a way forward for sheep breeding in Ireland along similar lines to that achieved by ICBF for cattle breeding.

April 2007: The Sheep Strategy Implementation Group, also chaired by John Malone, reported on progress with implementation of the recommendations of the ‘Sheep Industry Development Strategy’ and the funding arrangement for involving ICBF in sheep breeding.

July 2008: First meeting of the Interim Sheep Board.

Sep 2008: A strategy project team led by Dr Peter Amer (Abacus Bio Ltd) completed a review of sheep breeding in Ireland. The Interim Sheep Board adopted, with minor modification, the 20 recommendations contained in the report.

Oct – Dec 2008: The ICBF team, with considerable help from Timothy Byrne of Abacus Bio Ltd, proceeded to establish ‘Sheep Ireland’ and the ‘LambPlus’ service. A unique life-time identification system for participating flocks based on the official NSIS number was agreed with DAFF. Flocks using the PSBIP service provided by DAFF in 2008 were invited to join LambPlus for 2009. Flockbooks were consulted on the features of Lambplus®.

## 2. What is Lambplus®?

LambPlus® is the Sheep Breeding Information Service arm of ‘Sheep Ireland’, which has replaced the old PSBIP. It is the section of ‘Sheep Ireland’ that will record relevant on-farm data and then give flockowners back genetic evaluation and reports that will allow them compare their Flock’s performance against other LambPlus® Flockowners. Flockowners who join LambPlus® get the following service:

- a. **Online Flock Inventory** – Allows flockowner reconcile NSIS tag with within flock ID and also add any extra information. This inventory will be a permanent and accurate record of all sheep in the flock.
- b. **Lambing Pocket Book** – LambPlus® clients will be furnished with a pocket notebook to record lambs as they are born.
- c. **Performance Recording** – Flockowners will be able to record a series of relevant on-farm data e.g. birthweight, 40 day weight, Pregnancy Scanning, Foot Scoring, Ewe Culling, Dag Scoring etc.

- d. **Genetic Evaluations** – Only Lambplus® animals will receive Genetic Evaluations for recorded traits. These evaluations will be widely published and promoted throughout the industry.
- e. **Flock Reports** – Flock reports will be designed for each Lambplus® flockowner based on the lambing, mating, rearing and other on-farm data as well as data collected throughout the industry e.g. slaughter records. These reports (similar to the Herdplus® reports) will be specific to each flock but will allow flockowners compare their flock’s performance against national average figures.
- f. **Lamb Scanning & Weighing Service** – LambPlus® flockowners will also have access to a lamb scanning and weighing service. The results from this service will be used in the genetic evaluations that will be subsequently produced.

## 3. How much is it to join LambPlus®?

Internet: €50/annum (Direct Debit) / €60 (Cheque/Cash).

Postal: €90/annum plus €1 per ewe (Direct Debit) /

€100 plus €1 per ewe (Cheque/Cash).

## 4. How do I find out more about LambPlus®?

Phone LambPlus on Local: 1850-600-900 or alternatively go online [www.sheep.ie](http://www.sheep.ie) and in the ‘Reference Documents’ section there are documents about all of the developments that are currently taking place in sheep breeding.

## 5. Plans for the year ahead?

### a. Pedigree Breeders

The main focus of the first year is to put the various systems (Webscreens, tagging procedures, scanning equipment etc) in place and act upon the 20 key sheep breeding recommendations. Initially, we will be working with those pedigree flock owners that were involved in the PSBIP programme in 2008. As soon as we have these systems working to our satisfaction, we will welcome other flockowners to get involved.

### b. MALP – Maternal Lamb Producers Group

This is a new development. Over 20 flocks have been located for the purposes of demonstrating the benefits of choosing good rams. Rams in these flocks will be DNA typed and used across the flocks. Their lambs will be DNA typed and linked back to their sires and dams. Performance data will then be collected and used in genetic evaluations to demonstrate the benefits of using good rams. Graham Potterton will be co-ordinating the data recording in these flocks.

### c. CPT – Central Performance Test Flocks

This is another new development. The intention here is to get a small number of flocks to intensively record data on the progeny of selected rams of all breeds and thus provide links between all pedigree flocks. The progeny of these rams will be raised under uniform conditions thus allowing the genetic merit of each ram to be evaluated for a range of traits important to commercial producers.

– Pat Donnellan, ICBF

# ALL YEAR ROUND PERFORMANCE

**CRYSTALYX**

40kg Midi-tub

22.5kg  
Mini-tub

## EXTRA HIGH ENERGY

Crystalalyx is the highest energy feed lick on the market - it is also fully mineralised.

Crystalalyx plus good quality forages is sufficient feed for most situations. Meals will be necessary for early lambing or multiple births.

Crystalalyx doesn't break up in the weather and lasts a long time because the product is hard at 99% dry matter due to a heating process.

1 Mini-tub will last 20 ewes approx 3 weeks at a cost of approx 6 cents per ewe per day.

**It take some licking!**

## INFORMATION FOR NEW BREEDERS

1. New breeders must have 5 Pedigree females before they can be accepted as members of the Society.

2. Membership application forms can be had from: Jim Walker, Secretary, Irish Texel Sheep Society, Ballybrennan, Killinick, Co. Wexford. Tel: 053-9158145, 087-9873264.

All applications for membership should be made before 31st December so that lambs born the following spring are eligible for registration.

<b>3. COSTS:</b>	<b>€ Euro</b>
Entrance Fee	65.00
Annual Membership	30.00
Flock Book (optional at cost) currently	12.00
Book of Birth Notification Forms (at cost)	13.00
<b>2009 Registration Fees:</b>	
For every ewe mated	5.00
Ewe registration	10.00
Ram registration	20.00
Imported ewe registration (incl. N.Irl.)	15.00
Imported ram registration (incl. N.Irl.)	35.00

4. New breeders should generally buy their foundation stock at one of the Society Sales held in the months of August, September and October. All sheep sold through these Sales have been passed by Society Inspectors as being properly notched and tattooed, and as having no inherent faults.

If breeders purchase sheep privately either here, in Britain or Northern Ireland they should ensure that they are notched and tattooed properly. They should also be free from obvious faults, such as wrong mouths, bad legs, black patches on the wool or brown hair on the head and legs. Such privately bought sheep will be liable to inspection and if considered unsuitable, will be removed from the Flock Book.

5. All new breeders are encouraged to participate in the LambPlus scheme run by ICBF.

6. On joining the Society, each new breeder is assigned their own unique 3-letter flock code, while they are also assigned a Prefix (generally of their own choice), which is used in naming any rams born in their flock.

## CONDITIONS OF SALE

1. The highest bidder to be the purchaser, subject to paragraph 5. If any dispute shall arise between two or more bidders then the lot in dispute to be put up again and re-sold, or the auctioneer may declare the purchaser.
2. Purchasers to give their names and places of abode, and pay a deposit of 20% in part payment for each lot, or the whole of the purchase money, immediately upon the fall of the hammer if required.
3. All lots to be cleared away at the buyer's expense at the close of the sale, to be at the risk of the purchasers from the time the lot is sold, and to be taken with all faults and errors of description.
4. Purchasers at this sale not complying with the above conditions, will be subject, without further notice, to have their lots re-sold, whether by public auction or by private contract, the deposit money will be forfeited, and any deficiency, with all expenses attending such re-sale, to be made good by the defaulters at this present sale.
5. No Rams to be sold at less than €250, and no Ewe will be sold at less than €200. Buyers will be charged a fee of 5% of the sale price.
6. Any sheep having artificially coloured fleeces shall be disqualified.
7. The sellers and the auctioneers have described the sheep to the best of their ability and knowledge, and any express or implied conditions, warranty or representation statutory or otherwise howsoever, whether as to the capabilities of the sheep for stock or otherwise, is hereby excluded.
8. Rams will be sold in the order in which they appear in the Catalogue, saving the Champion and the Reserve Champion.
9. All lots are "on the Market" from 1st bid – when the Auctioneer's hammer falls, the vendor may refuse or accept the final bid. No further bids are allowed.

### IMPORTANT:

The sales inspectors will inspect all entries and cull any sheep which, in their opinion, have been brushed or trimmed save for squaring of the tail as well as sheep incorrectly tattooed. Culled sheep may not go through the ring. All sheep passing the pre-sale inspection must be put through sales ring, unless the sheep is obviously unwell.
