Sheep Ireland €uro-Stars

Background

The Sheep €uro-Star breeding index for sheep that were bred in flocks that participated in the LambPlus Sheep Breeding Scheme has been developed by Sheep Ireland and reflects how much Profit (€) a sheep farmer can expect to realize from making a breeding decision. They are designed to help farmers increase returns from sheep breeding and are based on available data on all animals in the Sheep Ireland Breeding Database.

€uro-Stars - What do they mean?

Production Index	Measure of genetic merit of a Sheep for Terminal traits.
Maternal Index	Measure of genetic merit of a Sheep for Maternal traits.
Lambing Index	Measure of genetic merit of a Sheep for Lambing traits.

€uro-Stars - Where does the information come from?

Index	Information Source
Production	1. Individual On-Farm Weights (Birth, 40 days old and Weaning). 2. Days to Slaughter. 3. Ultrasound Muscle & Fat Scanning.
Maternal	1. Lambing Ease. 2. Weaning Weight. 3. Ultrasound Muscle & Fat Scanning. 4. Lambing Survival.
Lambing	1. Lambing Ease. 2. Lambing Survival.
Accuracy %	This is an indication of how much confidence can be placed in the evaluations.
N/A	€uro-Star Indexes are sometimes not available due to the accuracy % for that index being too low.
% Rank	Shows how far into the Star Rating the sheep is placed.
€uro-Stars ★★★★★	5 Stars = Top 20% of the Breed. 4 Stars = Between Top 40% and Top 20% of the Breed. 3 Stars = Breed Average. 2 Stars = Between Bottom 40% & Bottom 20% of the Breed. 1 Star = Bottom 20% of the Breed.

LambPlus^(R)

LambPlus^(R) is the Sheep Ireland Breeding Information Service for both Pedigree and Commercial sheep farmers. LambPlus^(R) will record relevant on farm data submitted by the farmers and flock owners will then get genetic evaluations and flock reports that will allow them to compare their flock's performance with other LambPlus^(R) users.

To find out more about 'LambPlus', call Sheep Ireland today on 1850-600-900 or (www.sheep.ie).
