Selling Order: Males 1 - 48
Females 49 - 69

CONDITIONS OF SALE

1. All entries to be penned by 11.30am
2. The designated Society Inspectors will inspect all entries and cull any entries which in their opinion, are incorrectly identified i.e Pedigree details are incorrect. Or sheep that have been brushed or trimmed save squaring of the tail.
3. Sheep will be sold in Euro. Buyers will be charged a fee of 5% of the sale price.
4. No rams will be sold for under €300. No opening bid will be less than €150.
5. All sheep will be sold in the order of Lot No. which they are printed in the catalogue.
6. Sheep not sold in lots 1 to 5 not sold will be allowed back into the ring at the discretion of sale organizer and auctioneer.
7. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the animal prior to purchasing.

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

Sheep Ireland EuroStars

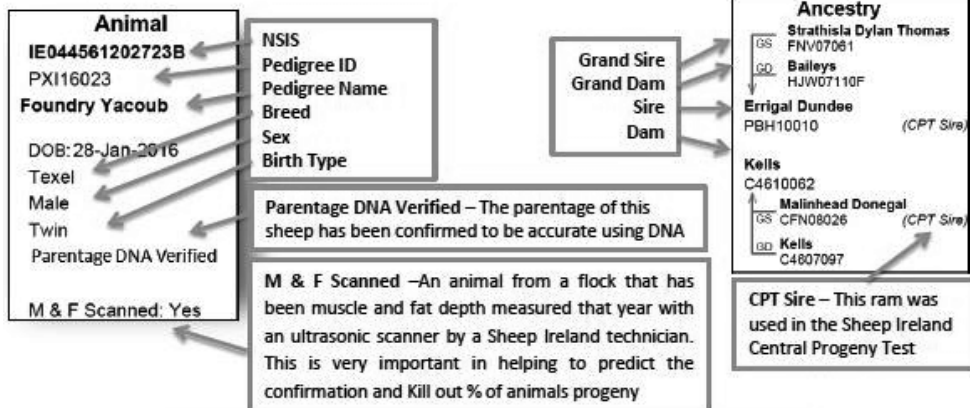

How to select a ram fit for purpose?

Evaluations should never be the only tool you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

Catalogue Explanation

Owner: John Farmer (DQI: 70%); Sheepstown, Bally, Co. Meath
Breeder: John Farmer; Sheepstown, Bally, Co. Meath

Flock DQI – Data Quality Index scores flocks based on their data quality, completeness and timeliness of data entry.

€uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- One star represents the bottom 20% of the breed
- Five star represents the top 20% of the breed
- The higher the stars, the higher the predicted profitability of that animal

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

Acc % (Accuracy%)

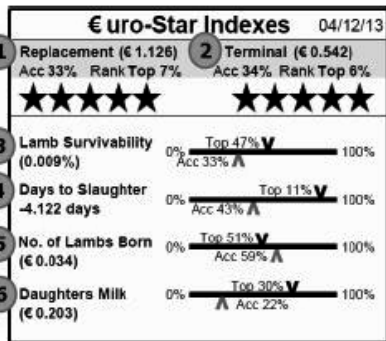

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example above)

Acc % parameters

V.Poor, 0% - 14% Poor, 15% - 24%
Fair, 25% - 34% Good, 35% - 49%
V.Good, 50% and above

Indexes & Traits

- 1) **Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) **Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) **Days to slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 4) **Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 5) **No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed
- 6) **Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed

RamSearch.ie

The Sheep Ireland Online Ram search is also available at ramsearch.ie; you can use this tool to get the most up to date evaluations for a ram, to search for rams by county, breed and current evaluation ratings.

Application Form for Membership

Name:

Address:

Tel No Mobile

Flock Designator: IE04:

I am the owner of 5 Pedigree Registered Females and I would like to apply for membership and a €1 share in the above named Society. I hereby to abide by the Rules of the Society, make payments as required and otherwise to be bound thereby.

Applications need to be received by Society Secretary prior to 31st December in the year of application, so flocks can be established prior to lambs being born and also for the breeder to be eligible for participation in the following year's Society Sales.

Please register my flock under the prefix*

First Choice:

Second Choice:

*Farm name or first line of address usually taken as prefix

Signature:

Date:

Terms of Membership

It is recommended that intending members contact the Society Secretary prior to purchasing foundation stock.

€65 Entrance Fee & €50 Annual Membership Fee = €115 (Other fees may be payable, contact Society Secretary) Details of Ewes & Rams owned must be submitted with application

This form should be completed, signed and sent with certificates and appropriate fees to:

**The Secretary
Irish Texel Sheep Society
Kellistown Farm, Kellistown, Carlow
email: info@irishtexel.com**
