€uroStar Evaluation Explanation Page

Important: Information in this catalogue is provided for or by the breeder, who is solely responsible for its accuracy—not Sheep Ireland

Evaluations should not be the only selection tool you use—animals must also be physically assessed (e.g. mouth, feet). Physical faults cannot be offset by strong evaluations and should be avoided in breeding.

See below how to interpret the €uroStar catalogue.

€uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- ★ Represents the **bottom 20%** of the breed for that trait
- ★★★★★ represents the **top 20%** of the breed for that trait
- Higher stars = Higher predicted profitability €

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

Rank

- This figure shows where an animal ranks within its breed in 20% bands—for example, “Top 20%” corresponds to five stars, while “Top 21%” corresponds to four stars (see example below)

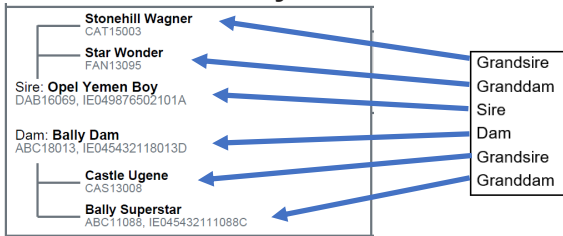

Acc% (Accuracy%)

- Accuracy indicates the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa. Acc% is displayed for the Replacement and Terminal Index, e.g.

Acc 87%

Ancestry Information

Interpreting the Indexes and Traits

1) Replacement (€3.44) – Used to select rams for breeding both replacement females and slaughter lambs; This index combines survival, growth, fertility and milk traits. € value reflects **profit per lamb**, comparable across breeds.

2) Terminal (€2.86) – Used to select rams for producing slaughter lambs; focuses mainly on survival and growth traits of progeny. € value reflects **profit per lamb**, comparable across breeds.

3) Lamb Survivability – Ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving past 48hrs.

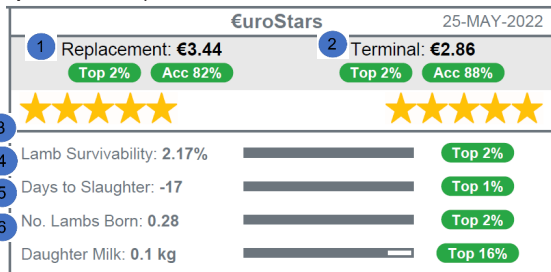

4) Days to Slaughter – Ranks animals on their genetic ability to grow. Fewer days indicates faster finishing to target weight.

5) No. of Lambs Born – Ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.

6) Daughters Milk – Ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

CONDITIONS OF SALE

1. The highest bidder to be the purchaser subject to paragraph 5. If any dispute shall arise between two or more bidders, then the lot in dispute shall be put up again and resold, or alternatively the auctioneer may declare the purchaser.
2. Purchasers are to give their name and place of abode, and may be asked to pay a 20% deposit in part payment for each lot purchased, or the whole of the purchase price, immediately or on the fall of the hammer if required.
3. All lots to be cleared away at the buyer's expense at the close of the sale. This is at the risk of the purchaser from the time the lot is sold and to be taken with all faults and errors of description.
4. Purchasers, at this sale not complying with the above conditions, will be subject without further notice to have their lots resold whether by public auction or by private contract. The deposit money shall be forfeited and any deficiency with all expenses attending such resale to be made good by the defaulters at this present sale.
5. No sheep male or female will be sold at less than €300. Buyers will be charged a commission fee of 5% of the sale price.
6. The first 6 lots in the male and the female section if unsold can be re-run after the first 30 lots in each corresponding category.
7. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself/herself about the sheep prior to the sale and purchasing same.
8. The auctioneers and sellers have described the sheep to the best of their ability and knowledge and any implied or express opinions, warranty or representation, statutory or otherwise howsoever, whether to the capabilities of the sheep for stock or otherwise is hereby excluded.
9. All sheep will be sold in the order that they appear in the catalogue.
10. All lots are on the market from the first bid – when the auctioneer's hammer falls the vendor may refuse or accept the final bid. No further bids are allowed.
11. Males that are bid to €2000, Females that are bid to €1500 but unsold by the vendor, will automatically be deducted 5% commission by the auctioneer.
12. All ownership of sheep regardless of purchasing online or ringside take place when full payment is transferred to J, P & Doyle Auctioneers. From the fall of the hammer, all bids taken online or ringside are final. Lots purchased online must be paid for within 30 minutes of purchase.
13. Card facilities at Blessington Mart - Domestic Irish Visa Debit Cards €10,000 limit. Purchases must be paid for by a verified cheque, cash or by bank transfer. Bank details are as follows:
Account Name: JP&M Doyle Limited, IBAN: IE30AIBK93208680186399, BIC: AIBKIE2D

IMPORTANT

All sheep are subject to veterinary inspection prior to penning. The sales inspectors will inspect and cull any sheep, which in their opinion, have been brushed or trimmed or the fleece interfered with in any way, save for the squaring of the tail. All sheep must be identified in correspondence with Society and Dept of Agriculture identification details and requirements. Sheep, which have not passed this pre-inspection, must not go through the sales ring. All sheep passing the pre-sale inspection must be put through the sales ring, unless the sheep is obviously unwell.

We request that breeders observe the rule for the duration of this and all other Society Sales that fleeces are not further interfered with, i.e., brushing or trimming etc, the only exception being washing of the face & legs.
