## Sheep Ireland EuroStars

### How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

#### Catalogue Explanation

## EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals can not be compared to any other animals from a different flock.

### Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

## Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

### Acc % parameters

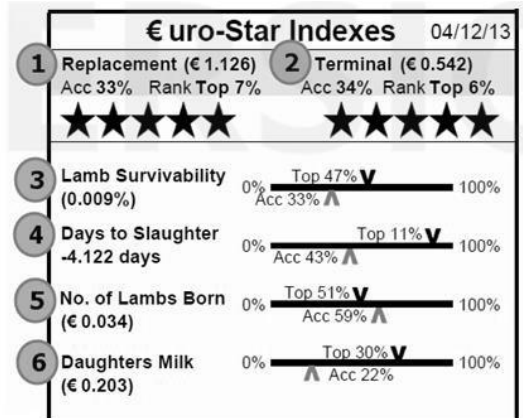

**V.Poor**, 0% - 14%   **Poor**, 15% - 24%

**Fair**, 25% - 34%   **Good**, 35% - 49%

**V.Good**, 50% and above

## Indexes & Traits

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

# **Forthcoming 2018 Donegal Texel Breeders' Club Sales**

Harvest Sale - Friday 14<sup>th</sup> September

Autumn Sale - Friday 5<sup>th</sup> October

In-Lamb Ewe Sale - Friday 14<sup>th</sup> December

---

---

## **CONDITIONS OF SALE**

1. Highest bidder to be purchaser subject to reserve price. If any dispute arises between two or more bidders, the lot to be put up again and resold or auctioneer may declare the purchaser.
  2. All lots to become the absolute property of purchaser at the fall of the hammer.
  3. The auctioneer acts as agent for the vendors and any action taken by a purchaser must be against the vendors and not the auctioneer or livestock mart committee.
  4. Sheep will be sold in the order in which they appear in the catalogue, saving the Champion which may be sold mid-way through its section.
  5. Rams and ewes will be sold in Euro guineas and all cheques must be advised to AIB, Ballybofey, Co. Donegal
  6. All purchases are made on the distinct and clear understanding that no warranty or guarantee whatsoever is given and shall be at the risk of the purchaser at the fall of the hammer.
  7. Purchasers not complying with these conditions will be liable to have their lots resold by public auction.
  8. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied him/herself about the animal prior to sale.
